

Hello,

We just wanted to tell you that 3 years ago we adopted a kitty from you. An all-black kitten who was in your shelter, that we were told was a stray found at only a few weeks old. We have named her Sage. Sage is the most wonderful cat in the world. Sage is beyond loving; she is sweet beyond belief, she is dainty and full of purrs.

We never imagined that we would adopt a kitty that would be such a wonderful addition to our little family. Sage sleeps with me (the mom) every night. Her first night we made her a bed of blankets on the floor, the next morning she was in our bed, her little body under the blankets, her head on our pillows. I awoke to her little kitty face looking back at me, saying "I like where we sleep".

Sage is amazing. She makes biscuits on my lap and nuzzles up in my neck every day. I cannot imagine a day without her. Thank you so much for taking her in until we came along. I cannot imagine a life without this precious cat.

I thought you may like to know what one of your rescues has done to enrich our lives. Sage is in an indoor-only kitty who knows nothing but cuddles and kisses, we feel it's the least we can do for the love and sweetness she has shown to us. Thank you again for spending the money, energy and resources you did to take care of her when you did. She has meant and continues to mean the world to us.

Thank you,

*Courtney & Brandon Nibarger*
